

SESD 272

Grounding cable

IEC / EN 61000-4-2

- For ESD pulses up to 30 kV according to IEC/EN 61000-4-2
- Length: 2 m

For immunity tests up to 30 kV 

Overview

The discharge resistors contained in the earth leakage set prevent the applied charge from disappearing immediately after an ESD generator discharges on, for

example, a vertical coupling plate, thus increasing the effect of the ESD test.

Technical data

Grounding cable

Color	black
Length	2 m
Outer diameter	approx. 3,5 mm

Connections	cable connectors Ø 6.2 mm
Bleeder resistors	2 x 470 kΩ
Voltage max.	for ESD pulses according to IEC / EN 61000-4-2 up to 30 kV

All informations regarding appearance and technical data correspond to the current state of development at the time of release of this data sheet. We reserve the right to make technical changes. 262101
