

SESD Target Case

Carrying case for SESD 8800-4 (targets), attenuators and cables

IEC / EN 61000-4-2, ISO 10605

- Robust case to protect the sensitive targets, attenuators and cables
- Kink-free routing of the cable
- Laser cut solid foam bottom part
- Space for 2 targets, 3 attenuators and two cables
- With combination lock

**Example fig.: Case does not contain targets, attenuator or cables*

*With durable foam inlay**

Extremely robust transport case for SESD 8800-4.

Combination lock

Modern design

Overview

The Target Case is ideal for transport purposes of your products. The robust case can safely accommodate two targets, three attenuators and two cables.

The foam inlay ensures vibration-free transport of your equipment and also prevents kinking of the cables.
